

FISCAL NOTE

SB 250 - HB 350

February 14, 1997

SUMMARY OF BILL: Adds Madison County to those counties authorized to collect fees for copies of public records of commercial value that require the reproduction of computer-generated maps or other data. Such fees must relate to the actual development costs of the system used to generate such records. Currently, the law applies only to Davidson and Knox Counties.

ESTIMATED FISCAL IMPACT:

Increase Local Govt Revenues - Not Significant / Permissive

Madison County currently does not have any computer-generated maps or other data whose reproduction would be affected by this bill, so there would be no immediate fiscal impact.

If the county chose to develop and operate such a computer system, the fiscal impact would depend upon the cost of the system and the resulting fees charged to offset that cost, but could be expected to be less than \$100,000.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

James A. Davenport, Executive Director
